

## Check your print

This line should measure exactly 50 mm (about 2 in).

If it doesn't, print again at Actual size / 100%

— not Fit to page.

A bank card should fit this outline exactly.

## Paper strip

1. Cut out the strip and the slot.
2. Wrap the strip around the base of your finger and pull the tail through the slot.
3. Read the size at the slot.

## Ring circles

Place your ring on the circles. Your size is the circle that matches the inside edge.

**US 4.5**

## US size ↔ inside diameter ↔ circumference

| US  | Inside diameter | Circumference |
|-----|-----------------|---------------|
| 4.5 | 15.3 mm         | 48.0 mm       |
| 5   | 15.7 mm         | 49.3 mm       |
| 5.5 | 16.1 mm         | 50.6 mm       |
| 6   | 16.5 mm         | 51.9 mm       |
| 6.5 | 16.9 mm         | 53.1 mm       |
| 7   | 17.3 mm         | 54.4 mm       |
| 7.5 | 17.7 mm         | 55.7 mm       |
| 8   | 18.1 mm         | 57.0 mm       |

| US   | Inside diameter | Circumference |
|------|-----------------|---------------|
| 8.5  | 18.5 mm         | 58.2 mm       |
| 9    | 18.9 mm         | 59.5 mm       |
| 9.5  | 19.4 mm         | 60.8 mm       |
| 10   | 19.8 mm         | 62.1 mm       |
| 10.5 | 20.2 mm         | 63.3 mm       |
| 11   | 20.6 mm         | 64.6 mm       |
| 11.5 | 21.0 mm         | 65.9 mm       |
| 12   | 21.4 mm         | 67.2 mm       |

Inside diameter =  $11.63 + 0.8128 \times \text{US size (mm)}$ ; circumference =  $\pi \times \text{diameter}$ .
